ACKNOWLEDGEMENTS

- A special Thanks to...
- **My Parents** ; Thanks to them I have been motivated to keep doing my best and always strive for perfection.
- **Mrs.Mani** ; Thanks to her, I have cleared all of my doubts and am now confident in my work and learn new resources to improve
- **Mr.Ken** ; Thanks to him, I am being taught how to use ai and interactive and inclusive material to better my projects.

ABOUT ME..

- Well hello there! My name is Saad Julqarnain and currently I am 11 years old. From a young age I loved coding so my parents have enrolled me in multiple classes for me to learn from but they just didn't stick.
- Due to that, quite recently I have been enrolled to Clevered where I am proud to say that it's the one. Near the end of my AI WIZARD 1 course I was selected along with 9 other students to participate in the Oxford internship Competition which leads to right now.
- I'm proud to be apart of this program and I hope that I can take a lot from this and start as a full fletched programmer.

ABOUT MY INTERNSHIP WITH CLEVERED!

- **My internship experience with Clevered;** So far my internship experience with Clevered has been splendid, I have learnt so many new things that I'm sure I can use a lot in the future.
- I am sure that I will learn more material that will help me in my journey of being an AI developer and I hope to see more soon.
- **Badges earned;** Rock star for Attentiveness and 2 other more that I can't find 😞

ABOUT MY APP

- Foxie The Chatbot; Foxie the chatbot is a chatbot that I, Saad Julqarnain, have created for the Clevered Internship Program. This is a chatbot that interacts with it's user and tries to be more like a person than a robot.
- So far, the chatbot has its classic mode, which is an Irish Foxie, its American Foxie, its British Foxie and finally a Spanish Foxie which speaks and listens to Spanish!
- My plans for Foxie are to add a Russian or Hindi talking and receipting Foxie which will most probably also have visual games along with oral games.

MY CONTACTS
